Fixings: Supplied with 316 s/steel anti vandal fixings

› Ephraim offers the ideal design solution for both a natural space or an urban precinct. Durable, aluminium edges contrast dramatically with the Kwila timber planks. Each piece within the Ephraim range is beautifully designed and manufactured to stand out within the public arena.

Choose from the Daintree table with the Atrium bench or the Boardwalk bench to complement the classically styled Ephraim seating range. The Ephraim range is manufactured using Kwila timber planks with powder coated, die cast legs. The high grade timber requires a periodic coating with an outdoor oil to maintain its beautiful natural warmth.
