Project Insights for the Bedford Park campus Custom Bin Enclosures

**New custom stainless steel bin enclosures to reduce waste and guide sorting of university rubbish.**

Terrain Group were engaged to custom design, manufacture and deliver to the client's requirements.

## Flinders University's new bin enclosures for Bedford Park Campus

- Custom design, manufacture and delivery
- Perforated side panels
- Curved roofs to restrict access from birds and keep rain out
- Custom-designed vinyl decals
- Adjustable feet for sloping and uneven ground

"The bin rollout has been a success and we have been very happy with them and it was such a smooth process from start to finish. Thank you again for all your work getting the bins organized for us!"

Anu Paivinen,  
Project Officer, Capital Development  
Property, Facilities and Development  
Division, Flinders University
